## my life ~~un~~scripted

written and directed by  
tricia goyer

*The Facts of Life* was teen girl drama at its finest. Yet today's teens know life is NOT like the movies. Real life means *real drama* ... something teens face on daily basis.

Yet, do teens have to let their lives be molded by every wave of emotion? This book empowers teen girls to **write their own script** and **direct their own life** by using **God's Script** as a guide.

### Tricia's Script:

Looking back at **my** drama-filled teen years, I now wonder . . . *What was I thinking?*

The truth? I wasn't. I lived from day to day on **every wave of emotion**. Some days excitement and passion partnered up, pattering wildly within in my heart.

Other days, depression and anxiety were my silent friends. I lived each day as it came, with no plan for my future, for my relationships, or for my heart. **I lived my life completely unscripted . . .** and, *well*, it didn't go well for me. Teen pregnancy and a broken heart were only two consequences. Yet my prayer is that when teen girls are asked

***Who's Writing Your Life?* their answer will be ME ... with the guidance of God, My Director.**
